

# DAMAKAYMEN

IT ENGINEER

## ABOUT ME

As an IT engineer, I'm passionate about designing innovative web and mobile solutions. With in-depth expertise in front-end and back-end development, I'm keen to join a dynamic team and make an active contribution to stimulating projects. My aim is to continue developing my skills in a constantly evolving technological environment. Ready to take on new challenges, I'm committed to adding real value to your business.

## FORMATIONS

**2018 - 2021**

**POLYTECH MARSEILLE**

- Diploma in computer science engineering

**2016 - 2018**

**ESPRIT**

- Preparatory course for IT engineers

## SOFT SKILLS

- Problem solving
- Teamwork
- Leadership and mentoring
- Effective communication
- Adaptability
- Time Management
- Agile / Scrum

## HARD SKILLS

- Js/Ts
- Angular 19
- Node.js / Express.js
- RESTful API
- Git / GitFlow
- Prisma ORM
- SQL / MySQL
- Web Application Security (OWASP)
- TailwindCSS / DaisyUI
- Unit Testing (Jest)

## LANGUAGES

- Français (Natif)
- Anglais (B2 - TOEIC 875)
- Arabe (Natif)

## PROFESSIONAL EXPERIENCES

**FULLSTACK JS / TS / PHP WEB DEVELOPER - CGI - 06/2023 TO PRESENT**

Angular 19, Oracle, GitHub, PHP, Material Design, TailWindCSS, DaisyUI

- Development of a robust web application using Angular, optimising user experience and performance.
- Optimisation of loading times and implementation of advanced interactive functionalities.
- Introduction to Spring Boot, development of Microservices and integration with relational databases.
- Implementation of security measures in PHP to protect against vulnerabilities (XSS, CSRF, SQL injections).
- Setting up data filters and validating user inputs.
- Training and mentoring a junior developer in PHP and the use of Git and GitFlow.
- Organising regular peer programming and code reviews to strengthen the team's skills.
- Setting up unit tests with Jest .

**FULLSTACK JS / TS WEB DEVELOPER - EXOLIS - 02/2021 TO 06/2023**

Node.js, Express.js, Angular 18, SQL, MySQL, GitHub, REST APIs, Mobile avec Cordova, Jest

- Design and development of high-performance RESTful APIs with Node.js and Express.js, building scalable and secure backend services. Integration of middleware for request validation and authentication via JWT.
- Implementation of caching and error management mechanisms, ensuring the stability, speed and reliability of backend services.
- Development of unit and integration tests with Jest, guaranteeing the quality and robustness of the code.
- Creating responsive user interfaces with Angular, optimising the user experience through reusable components and fluid navigation.
- Use of Git for version control, facilitating team collaboration and continuous integration, with effective management of merge conflicts.
- Contributing to the process of building and deploying mobile applications for iOS and Android using Cordova.
- Design and optimisation of relational databases with MySQL and SQL, ensuring efficient data management and seamless integration with backend services.
